AUDITRE Version 3.1.1 Release Notes

June 2008

Treehouse Software, Inc. is pleased to announce the release of AUDITRE v3.1.1. This release has been tested using ADABAS v7.4 through v8.1.3.

AUDITRE may support releases of ADABAS later than v8.1.3, but since those releases were not available at the time of this release, Treehouse Software, Inc. cannot be certain that AUDITRE v3.1.1 will support these later releases.

- This release of AUDITRE provides support for ADABAS 8, using a new module, AUDITRE8. Sites using ADABAS 7.4 should continue to use the AUDITRE7 module.
- The module for any ADABAS version less than 7.4 is AUDITRE6. AUDITRE6 is supplied with this release, but no enhancements and/or fixes will be applied to this module.
